13. **VOLUME OF WORK:-**

The Government/agency does not guarantee any definite volume of work relating to shelling of paddy at any time or throughout the period of contract. The mere mention of any type of work in this policy shall not by itself confer a right on the miller to demand that work relating to shelling of paddy at a particular centre/mandi should necessarily or exclusively be entrusted to him.

As paddy is to be allotted to the miller subject to its availability with the procuring agencies, the shortfall, if any, from the paddy allocation to be made without Cash Security shall not be arranged from other districts and this portion shall be deemed to have lapsed and the miller shall have no claim against it.

b. While allocating paddy for KMS 2015-16 to eligible rice mill, its performance in KMS 2014-15 shall be the sole deciding factor. Installed milling capacity of the mill shall not be any criteria for allocation of paddy. It is clarified that paddy in rice mills at a milling centre should be stored proportionately in rounds of 20% each (of the millers entitlement). The next round of paddy storage should start only after 20% of paddy storage of the previous is completed in each eligible rice mill.

i) The miller who had completed his milling of KMS 2014-15 by 31-01-2015 shall be eligible for 25% additional paddy allocation over and above the quantity of the paddy stored in his mill during KMS 2014-15.

   In addition to provisions already contained in the above mentioned Clause it is amended that those rice mills which have changed their lease deeds shall only be allotted 2000 MT paddy during KMS 2015-16.

   It is further clarified that those rice mills which have changed their lease deeds within their blood relations, such mills shall not be treated as new rice mills and if the change is out of the blood relations, then such mills shall be treated as new rice mills and shall only be allotted 2000 MT paddy.

   In case a rice miller changes his lease from one rice mill to another rice mill then it will be treated as new rice mill and shall be allotted 2000 MT paddy. In case a rice mill was operated on lease last year and the same rice mill is being operated by the owner party this year, the rice mill shall be treated as new rice mill and shall only be allotted 2000 MT paddy.

   In addition to above mentioned provisions, Such rice mills which were allotted paddy less than 2000 MT during KMS 2014-15 due to non-availability of paddy at a particular milling centre, the initial entitlement of such mills will be taken as 2000 MT. However, incentive paddy will be calculated on paddy actually milled and the entitlement for KMS 2015-16 will be worked as 2000 MT + incentive paddy and cut if any, will be imposed on this entitlement as applicable to milling centre in ratio and proportion. Further no benefit of 2000 MT entitlement shall be allowed to such mills from which the agency has to shift paddy during KMS 2014-15 and entitlement of such mills will be calculated on the basis of paddy actually milled during KMS 2014-15 by excluding quantity of shifted paddy.

b) The last date of registration of rice mills as per Clause 4 of Custom Milling Policy 2015-16 is 28-09-2015 instead of 15-09-2015.
